

4. CV of the researcher

Name: Dušan Nikolić

E-mail: dusan.nikolic@oeaw.ac.at

Mobile: +4366499606014

Website: <https://dusannikolic.com>

ORCID: <https://orcid.org/0000-0002-4152-6338>

RESEARCHER-ID: JAC-7807-2023

Work Experience

01/15/2026 – 01/15/2028 **Postdoctoral Research Scientist**

Employer: Austrian Academy of Science, Acoustics Research Institute

Website: <https://www.oeaw.ac.at/en/ari/>

Fellowship:

Duties:

- Conducting experimental research on speech perception, lexical prosody, and the real-time processing of acoustic cues in spoken language.
- Designing and implementing behavioral, and eye-tracking experimentation, investigating the integration of acoustic cues during speech comprehension.
- Processing and analyzing acoustic, eye-tracking, and electrophysiological data using advanced statistical and computational methods.
- Developing and applying statistical models, including linear mixed-effects models to analyze time-course and individual-difference data.
- Developing computational approaches to quantify evidence accumulation and neural responses during speech processing.
- Preparing research findings for peer-reviewed publications, conference presentations, and grant applications.
- Collaborating with researchers across phonetics, psycholinguistics, cognitive neuroscience, and computational linguistics.

01/09/2025 – 01/09/2026 **Visiting Researcher**

Employer: University of Calgary, Department of Linguistics

Website: <https://www.ucalgary.ca/future-students/undergraduate/explore-programs/linguistics>

Duties:

- Conducted experimental research on speech perception and real-time spoken-word recognition.
- Designed Visual World Paradigm eye-tracking experiments.
- Processed and analyzed behavioral and eye-tracking data using mixed-effects
- Investigated the integrated multiple acoustic cues during speech perception and lexical processing.
- Contributed to research publications, conference presentations, and collaborative research projects.

01/01/2025 – 01/12/2025 **Instructor of Record**

Employer: Mount Royal University, Department of Linguistics & Department of Sociology and Anthropology

Website: <https://www.mtroyal.ca/>

Courses: Linguistic Anthropology, (ANTH 1106) (Winter 2025); Introduction to Linguistics, (LING 1111) (Spring 2025, Fall 2025, Winter 2026)

Duties:

- Developed the curriculums.
- Designed the syllabi.
- Wrote and implemented lesson plans.
- Assigned readings, quizzes, and homework.
- Recorded video lectures, available at: <https://dusannikolic.com/>.

01/09/2024 – 01/09/2025 **Linguist**

Employer: The Language Conservancy

Website: <https://languageconservancy.org/>

Duties: Transcribing audio data, archiving and cataloging linguistic data for area languages; developing and maintaining dictionary databases for area languages; customizing and creating language textbooks and related content

23/05/2024 – 22/06/2024 **Research Fellow**

Employer: Austrian Academy of Sciences

Website: <https://www.oeaw.ac.at/oesterreichische-akademie-der-wissenschaften>

Address: Dr. Ignaz Seipel-Platz 21010 Wien

Duties: Working on the MSCA PF 2024

31/08/2022 – 30/04/2023 **Instructor of Record**

Employer: Mount Royal University

Website: <https://www.mtroyal.ca/>

Address: 4825 Mt Royal Gate SW, Calgary, AB T3E 6K6

Courses: Nature of Language (LING 1111)

27/08/2018 – 29/05/2023 **Teaching Assistant**

Employer: University of Calgary

Website: <https://slllc.ucalgary.ca/>

Address: 2500 University Way N.W., Calgary, Alberta

Courses: Introduction to Linguistics (LING 201); 2x Phonetics I (LING 341); Language and Power (LING 309)

01/01/2022 – 01/09/2022 **Data Annotator & Speech Recognition Consultant**

Employer: Moveworks

Website: <https://www.moveworks.com/>

Duties: Annotating entities, data mining, rating the bot's answers, transcribing speech

01/01/2022 – 30/04/2022 **Instructor of Record**

Employer: University of Calgary

Website: <https://slllc.ucalgary.ca/>

Address: 2500 University Way N.W., Calgary, Alberta

Courses: Phonetics I (LING 341)

01/04/2021 – 31/12/2021 **Stoney Nakoda Dictionary Editor and Scribe**

Employer: The Language Conservancy

Website: <https://languageconservancy.org/>

Duties: Recording, annotating, editing dictionary entries, working with Lua scripts

Education

27/08/2018 – 29/05/2023 **PhD in Linguistics**

University of Calgary (Canada)

Thesis: Perception of Lexical Pitch Accents by Serbian and French Speakers

Viva: 17/04/2023

01/11/2015 – 14/09/2017 **MA in Philology**

University of Niš (Serbia)

Thesis: Pronunciation Activities in EFL Middle School Textbooks

Viva: 13/09/2017

01/10/2015 – 31/08/2016 **MA Teacher in Language and Literature**

University of Belgrade (Serbia)

Thesis: The Portrayal of the Poor in Charles Dickens' Novels: "Oliver Twist" and "Great Expectations"

Viva: 06/06/2016

01/10/2011 – 21/09/2015 **BA with Honours in Philology (English Language and Literature)**

University of Niš (Serbia)

01/09/2016 – 15/02/2017 **MA Exchange Programme**

University of Warsaw (Poland)

Publications

Almost all publications revolve around the processing of words, which is the main topic of the MSCA project I am proposing.

- Nikolić, D. & Winters, S. (in preparation). Perception of Serbian Pitch Accents by Serbian and French listeners in a Sequence Recall Task. *Journal of Phonetics*.
- Nikolić, D., Russell, C., Brooklyn, S., Sazzad, S., & Winters, S. (submitted). An Online Free Classification Method for Investigating Perceptual Similarity in Speech. *Phonetica*.
- Nikolić, D. & Sredojević, D. (accepted, to appear). Examining the relationship between speech perception and production through lexical pitch accents in Standard Serbian. *Matica Srpska Journal of Philology and Linguistics*.
- Nikolić, D. & Winters, S. (accepted, to appear). Native and non-native listeners' perception of Serbian lexical pitch accents. *Canadian Journal of Linguistics/Revue Canadienne De Linguistique*.
- Coretta, S., Casillas, J. V., Roessig, S., Franke, M., Ahn, B., Al-Hoorie, A. H., ... & Wood, A. (2023). Multidimensional Signals and Analytic Flexibility: Estimating Degrees of Freedom in Human-Speech Analyses. *Advances in Methods and Practices in Psychological Science*, 6(3), 25152459231162567.
- Nikolić, D. & Winters, S. (2022). Are Serbian and English Listeners Insensitive to Lexical Pitch Accents in Serbian? *Phonetica*, Karger. <https://doi/10.1515/phon-2022-2023/html>.
- Nikolić, D. (2021). Effects of F0 Acoustic Parameters on the Perception of Serbian Lexical Pitch Accents. *Analitički Filološki Fakultet*. Vol.33, n.1, 13–27. <https://doi.org/10.18485/analiff.2021.33.1.1>.
- Nikolić, D. (2021). F0 Acoustic Parameters' Effects on Discrimination of Serbian Lexical Pitch Accents. In Hernandez, A. and Butterworth E. (eds.). 2020 CLA Conference Proceedings. Western University, Canada
- Nikolić, D. (2020). Distribution of PRO in Serbian Subjunctives. *Calgary Working Papers in Linguistics (CWPL)*. University of Calgary, Canada.
- Nikolić, D. (2020). Effects of acoustic parameters on perception of lexical pitch accents. Proceedings in Canadian Linguistic Association (CLA). Western University, London, Ontario. (30 May, 2020).
- Nikolić, D. (2019). Tone and break-index (ToBI) theoretical framework applications with EFL speakers. Proceedings in Language, Literature, Theory. University of Niš, Serbia. (27-28 April, 2018).
- Nikolić, D. (2018). Intelligibility within a Modified CLIL Framework. *Glottodidactica: An International Journal of Applied Linguistics*. Vol. 44, n.1, 119-130. <http://pressto.amu.edu.pl/index.php/gl/article/view/9174/8919>.
- Nikolić, D. (2018). Empirical Analysis of Intonation Activities in EFL Student's Books. *International Journal of Applied Linguistics and English Literature*, 7(3), 181-187. <http://journals.aiac.org.au/index.php/IJALEL/article/view/4286/3364>.
- Nikolić, D. (2016). Acoustic Analysis of English Vowels Produced by American Speakers and Highly Competent Serbian L2 Speakers. *Facta Universitatis, Series: Linguistics and Literature*. Vol. 14, n. 1, 85-101. <http://casopisi.junis.ni.ac.rs/index.php/FULingLit/article/view/1683>.

Edited Volumes

- Nikolić, D., Daniel, A.D., Nelson, B., Oguz, M., Xu, K. (2020). Calgary Working Papers in Linguistics (CWPL). University of Calgary. <https://prism.ucalgary.ca/handle/1880/112743>

Reviewed Papers

- Nikolić, D., (2026). When Feedback Matters: An Active-Inference Model of the Speaking-Over-Writing Advantage in Retrieving Word-Production Modality. *MDPI: Behavioural Sciences*.
- Nikolić, D., (2026). Acoustics of Tone-Stress interaction in Disyllabic Triplets: An Empirical Study on Gojri Language. *MDPI: Languages*.
- Nikolić, D. (2025). Unrealistic Feedback in Socially Prescriptive Speech Technologies. *Frontiers in Communication: Language Communication*.

Book Reviews

- Nikolić, D. (2023). Book review: Silverman, Daniel. 2017. A Critical Introduction to Phonology. Functional and Usage-Based Perspectives (2nd Ed.). London/New York: Bloomsbury. Pp. xxi + 360. US\$33.95 Canadian Journal of Linguistics/Revue Canadienne De Linguistique.
- Nikolić, D. (2022). Clausal complementation in South Slavic, edited by Björn Wiemer and Barbara Sonnenhauser, Berlin, De Gruyter Mouton. Canadian Slavonic Papers. <https://doi.org/10.1080/00085006.2022.2101735>.

Conference Presentations

- Nikolić, D., & Reinisch, E. (2026). To wait or not to wait? An eye-tracking account of the integration of acoustic cues of lexical pitch accents. Presented at Architecture and Mechanisms for Language Processing 2026 (2-4 September, 2026).
- Nikolić, D., Gardner, K. & Athanasopoulou, A. (2026). Integration of Acoustic Information in Lexical Pitch Accent Processing. Presented at Canadian Linguistics Association Annual Meeting 2026 (17-19 June, 2026).
- Nikolić, D., Gardner, K. & Athanasopoulou, A. (2026). Real-time Integration of Acoustic Cues of Lexical Pitch Accents: An Eye Tracking Study. Presented at Hanyang International Symposium on Phonetics and Cognitive Sciences of Language 2026 (22-23 May, 2026).
- Nikolić, D. (2025). Perception of Serbian restricted tone by native and non-native listeners: Evidence from an online free classification task. Presented at Phonetics and Phonology in Europe 2025, University of the Balearic Islands, Spain (25-27 June, 2025).
- Nikolić, D. (2024). Processing of Restricted Tone by Native and Non-native Listeners. Presented at Österreichische Linguistiktagung. Innsbruck University, Austria. (17-19 December, 2024).
- Nikolić, D. (2024). Dialectal Variation in the Perceptual Similarity Space of Serbian Lexical Pitch Accent. Presented at Language, Literature, Intersectionality (LLI), University of Niš, Serbia. (27 April, 2024).
- Nikolić, D. (2023). Perceptual similarity space of Serbian lexical pitch accents: evidence from Serbian and French listeners. Presented at 20th International Congress of Phonetic Sciences (ICPHS). (7-11 August, 2023).
- Nikolić, D. (2022). Word Stress Acoustic Correlates: English Speakers versus Exemplar Models. Presented virtually at Architectures and Mechanisms for Language Processing (AMLAP). (7-9 September, 2022).
- Nikolić, D. (2022). Can Exemplar Models Replicate Human Production of Word Stress? A Case of Canadian English Speakers. Presented virtually at The 2022 Seoul International Conference on Linguistics (SICOL). (11-12 August, 2022).
- Nikolić, D. (2022). Is There "Deafness" to Stress Contrasts: A Case of English and Serbian Speakers. Presented virtually at Canadian Linguistic Association (CLA). (3rd June, 2022).
- Nikolić, D. (2022). The Perception of Stress by Speakers of Languages with Prosodically Marked Lexicon. Presented virtually at 6th Belgrade International Meeting of English Phoneticians (BIMEP). (25-26 March, 2022).
- Nikolić, D. (2021). Are Non-Native Speakers "Deaf" to Lexical Pitch Accents? Presented virtually at Phonetics and Phonology in Europe 2021. (21-23 June, 2021).
- Nikolić, D. (2021). "Deafness" to Lexical Pitch Accents: The Case of Non-Native Listeners. Presented virtually at Canadian Linguistic Association (CLA). (5 June, 2021).
- Pletnyova, G. and Nikolić, D. (2021). Integrating the Principles of Universal Design for Learning in an Online Linguistics Course. Presented virtually at Canadian Linguistic Association (CLA). (4 June, 2021).
- Nikolić, D. (2021). "Deafness" to Intonation Categories: A Case of Non-native Listeners. Presented virtually at Graduate Forum. University of Calgary, Canada. (22 April, 2021).
- Nikolić, D. (2021). F0 Acoustic Parameters Effects on Discrimination of Lexical Pitch Accents. Presented virtually at Linguistic Association of America (LSA). (7-11 January, 2021).
- Nikolić, D. (2020). Are English Speakers "Deaf" to Serbian Lexical Pitch Accents?. Presented virtually at Montana-Alberta Conference on Linguistics. University of Montana, USA (14 November, 2020).
- Nikolić, D. (2020). Effects of Acoustic Parameters on Perception of Lexical Pitch Accents. Presented virtually at Canadian Linguistic Association (CLA). Western University, London, Ontario. (30 May, 2020).
- Nikolić, D. (2020). Effects of F0 Acoustic Parameters on the Perception of Serbian Lexical Pitch Accents. Presented at 5th Belgrade International Meeting of English Phoneticians (BIMEP 2020). University of Belgrade, Serbia. (30-31 March, 2020).
- Nikolić, D. (2020). Perception of Serbian Pitch Accents by English speakers. Presented virtually at Peer Beyond Graduate Student Symposium. University of Calgary, Canada. (25 January, 2021).
- Nikolić, D. (2019). Perception of Lexical Pitch Accents. Presented at The Northwest Phonetics;ology Conference. University of Calgary, Canada. (21 September, 2019).
- Nikolić, D. (2018). ToBi Analysis of EFL Serbian Speakers' Intonation Use. Presented at Alberta Conference on Linguistics. University of Calgary, Canada. (27 October, 2018).
- Nikolić, D. (2018). Tone and break-index (ToBi) theoretical framework applications with EFL speakers. Presented at Language, Literature, Theory. University of Niš, Serbia. (27-28 April, 2018).
- Nikolić, D. (2018) Contribution of Segmental and Intonation Features to the Perception of Foreign Accent. Presented at BIMEP (Belgrade International Meeting of English Phoneticians). University of Belgrade, Serbia. (30 March, 2018)
- Nikolić, D. (2017). Communication: An Overview of CLIL and Non-CLIL Classroom Practices. Presented at Österreichische Linguistiktagung. Alpen-Adrian University Klagenfurt, Austria. (7-10 December, 2017).

Invited Talks

Nikolić, D. (2022) Perception of Lexical Pitch Accents by Serbian and French Listeners. Given at the University of Trier. (13 December, 2022).

Scholarships/Awards

08/2023 Travel Bursary "Gösta Bruce Scholarship"

The International Phonetic Association

Awarded: 500 GBP

Purpose: To travel to the 20th International Congress of Phonetic Sciences 2023, in Prague

09/2022 – 04/2023 Eyes High International Scholarship

University of Calgary (Institutional)

Awarded: 15000 CAD

05/2020 – 05/2022 Izaak-Walton Killam Award

University of Calgary

Awarded: 66000 CAD

01/2019 – 03/2021 Scholarship for the most accomplished graduate students studying abroad

‘Dositeja Fund’ (Serbian Ministry of Education)

Awarded: 20000 CAD

09/2018 – 04/2020 Eyes High International Recruitment Scholarship

University of Calgary (Institutional)

Awarded: 12000 CAD

09/2018 – 04/2019 Dean’s Entrance Graduate Scholarship

University of Calgary (Institutional)

Awarded: 10000 CAD

09/2016 – 02/2017 Erasmus+ scholarship

European Commission (Erasmus)

Awarded: 5430 CAD

10/2012 – 09/2016 The Republic of Serbia Scholarships for Outstanding Students

The Ministry of Education (federal)

Awarded: 2600 CAD

10/2012 – 09/2015 The City of Aleksinac (Serbia) Scholarship

Fund for supporting outstanding students from the territory of Aleksinac, Serbia

Awarded: 1250 CAD

Summer Schools

Summer 2026: Cognitive and Affective Neurophysiology Summer School 2026 (13th ed.)

Venue: The University of Porto, The Laboratory of Neuropsychophysiology, Portugal

Sessions and tutorials attended and covered:

Lecture: Introduction to EEG techniques in Cognitive and Affective Neuroscience

Practicum: The EEG laboratory (overview, equipment, safety/hygiene)

Lecture: Introduction to the Event-Related Potentials (ERP) and ERP Research Design

Lecture: Principles of EEG data collection and ERP research design

Practicum: EEG/ERP data acquisition

Lecture: Electrophysiological signal processing (Using EEGLAB - standalone version)

Practicum: Signal processing tutorial

Practicum: Signal processing and data extraction (ERP measurement)

Lecture and demonstration: Statistical analysis of ERP data

Lecture and discussion: Reproducibility and open science practices in EEG/ERP research

Spring 2024: 4th International School on Psycholinguistics, Neurolinguistics and Clinical Linguistics

Venue: The University of Novi Sad, Faculty of Philosophy, Serbia

Sessions and tutorials attended:

Visual word recognition facilitated by Dušica Filipovic

Research methods in language acquisition and Theories in language acquisition by Mirjana Mirić

Neuroanatomy I and II by Silvia Martinez-Ferreiro

Clinical Linguistics: Communication and Speech disorders by Silvia Mart'inez-Ferreiro, Ana Matić Skorić & Claudia Peñaloza

Clinical Linguistics: Acquired Language Disorders by Silvia Mart'inez-Ferreiro, Ana Matić-Skorić & Claudia Peñaloza

Clinical Linguistics: Degenerative Language Disorders by Claudia Peñaloza

Fellowships

09/2022 LRC Fellowship

University of Calgary

Awarded: 2000 CAD

Project: Writing Retreat: Eat, Write, Hike

09/2020 - 05/2021 LRC Fellowship

University of Calgary

Awarded: 2000 CAD

Website: <https://wpsites.ucalgary.ca/narrativesofcolor/>

Language Skills

Mother tongue: Serbian

Other languages: English: near-native proficiency (IELTS)

German: lower-intermediate proficiency (University-level courses)

Polish: beginner proficiency (University of Warsaw certificate)

Professional Services

05/2023 – present University of Calgary and Graduate Scholar Alumnus

01/2022 – 05/2023 Graduate College Scholar

"Graduate College", <https://www.ucalgary.ca/gradcollege>

12/2021 – 05/2023 Team project coordinator

"Many Speech Analyses" Project

Leading a team of phoneticians whose task is to carry out speech and data analysis

website: <https://many-speech-analyses.github.io/>

11/2021 – 05/2022 Graduate students' representative on Advisory Decanal Selection Committee of University of Calgary, Canada

Serving on the committee whose job is to propose a new Faculty of Arts Dean

09/2020 – 05/2021 LRC Steering Committee member of "Language Research Centre" of School of Languages, Linguistics, Literatures and Cultures, University of Calgary, Canada

<https://arts.ucalgary.ca/language-research-centre-home>

09/2020 – 09/2022 President of "A Higher Clause" (Linguistics Graduate Students Association)

<https://calgarylinguistics.ca/a-higher-clause/>

07/2020 – 07/2021 Vice-chair of the Academic Support Committee

"Graduate Student Association" (University of Calgary)

09/2020 – 10/2020 Group Mentor (Mentor to a group of international students)

"Global Leadership Challenge YYC"

Our challenge: Calgary Bridge Foundation for Youth No.2

<https://ucalgary.ca/international/study-abroad/global-community-challengeyyc>

09/2019 – 09/2022 Calgarylanguistics.ca Admin

"A Higher Clause" (Linguistics Graduate Students Association)
website: <https://calgarylinguistics.ca/>

07/2019 – 05/2020 Academic Support Committee member
"Graduate Student Association" (University of Calgary)

09/2019 – 09/2020 VP Academic
"A Higher Clause" (Linguistics Graduate Students Association)

09/2018 – 09/2020 Calgary Working Papers (CWPL) editor
"A Higher Clause" (Linguistics Graduate Students Association)
website: <https://sites.google.com/view/cwpl>

Panelist

03/31/2022 "The Life of Graduate Student" by Graduate Student Association, University of Calgary
03/18/2022 Panelist "Verbatim Annual Colloquium" by Linguistics Undergraduate Student Association, University of Calgary
06/10/2020 "Road to Success in Grad School", by Graduate Student Association, University of Calgary

Reading Groups Attended

Fall 2022: Eye-tracking reading group
Winter & Spring 2021: Phonetics/Phonology Reading Group
Winter & Spring 2021: Applied Linguistics Reading Group
Fall 2021: Workshops in Technologies for Language Teaching

Conference Organizer & Volunteer

04/2021 & 2022 Organizer
"Graduate Forum" at School of Languages, Linguistics, Literature, and Culture (SLLLC), University of Calgary, Canada

27-29/02/2020 Organization committee member
"Peer Beyond Graduate Student Symposium" by Graduate Student Association at University of Calgary, Canada

21/09/2019 Organization committee member
"The Northwest Phonetics;ology Conference" by Linguistics Department at University of Calgary, Canada

22/02/2019 Technical committee advisor
"Peer Beyond Graduate Research Symposium" by Graduate Student Association at University of Calgary, Canada

27/10/2018 Web designer & Session Chair
"Alberta Conference on Linguistics 2018" by Linguistics Department at University of Calgary, Canada

16/11/2016 Volunteer
"Bilingual Child Migrants in a Multilingual Europe" by Institute of English Studies at University of Warsaw, Poland

26/04/2014 Volunteer
"Language, Literature, Marginalization" by Department of English at University of Niš, Serbia

Workshops Organizer

14/02/2020 "Academic Collaboration", facilitated by Dr. Mary O'Brien

09/12/2019 "Python for Linguistic Research", facilitated by Dr. Dennis Storoshenko

03/12/2019 "Thesis Development", facilitated by the Graduate Writing Center

Public Engagement (citizen science)

06/05/2023 TedX Calgary "Yes and..."
Presented a poster: "Ask me anything about Language"

5. Capacity of the Participating Organisation

5.1 Overview of Participating Organisation

Organisation role	PIC	Legal Entity Short Name	Academic organisation (Y/N)	Country	Name of Supervisor
Acoustics Research Institute, Austrian Academy of Sciences	999823912	OEA	Y	Austria	Robert Baumgartner

5.2 Capacity of the Participating Organisation

Beneficiary. (Oesterreichische Akademie der Wissenschaften OEA), Austrian Academy of Sciences, Acoustics Research Institute
General description. The Austrian Academy of Sciences is Austria's largest non-university research and science institution whose statutory mission is to "promote science in every way". The Academy endeavours to represent science by engaging in interdisciplinary exchange to consider important questions concerning the society and inform the public of important scientific insights. The Academy hosts 26 research institutes, one of which is the Acoustics Research Institute (ARI). The ARI has 5 clusters each of which focuses on different aspects of acoustic: Biology, Hearing, Mathematics, Numerics, and Phonetics. The ARI also has Machine Learning Team in which researchers from all clusters at ARI investigate the various aspects of machine learning and artificial intelligence together.
Role and profile of supervisors. Dr Robert Baumgartner will be the co-supervisor on the project. Their expertise covers a variety of issues in spoken language processing such as understanding auditory cognition in simple and complex environments with the long-term vision to improve future hearing technologies, diagnostics, and therapies. Robert combines computational modeling with psychoacoustics and cognitive neuroscience methods, and they are committed to open and reproducible research allowing the scientific community to be fair and efficient. Relevant publications: - Greif, T., Barumerli, R., Ignatiadis, K., Tóth, B., & Baumgartner, R. (2025). The role of spatial perception in auditory looming bias: neurobehavioral evidence from impossible ears. <i>Frontiers in Neuroscience</i>, 19, 1645936. - Ignatiadis, K., Baier, D., Barumerli, R., Sziller, I., Tóth, B., & Baumgartner, R. (2024). Cortical signatures of auditory looming bias show cue-specific adaptation between newborns and young adults. <i>Communications Psychology</i>, 2(1), 56. - Baumgartner, R., Reed, D. K., Tóth, B., Best, V., Majdak, P., Colburn, H. S., & Shinn-Cunningham, B. (2017). Asymmetries in behavioral and neural responses to spectral cues demonstrate the generality of auditory looming bias. <i>Proceedings of the National Academy of Sciences</i>, 114(36), 9743–9748. https://doi.org/10.1073/pnas.1703247114 - Deng, Y., Choi, I., Shinn-Cunningham, B., & Baumgartner, R. (2019). Impoverished auditory cues limit engagement of brain networks controlling spatial selective attention. <i>NeuroImage</i>, 202, 116151. Dr Eva Reinisch's expertise covers a variety of issues in spoken language processing. Among others, these concern signal-driven context effects on spoken-word recognition, organization of the mental lexicon, use of acoustic cues in native and non-native language processing, and the influence of foreign accent and dialect in spoken word recognition. From 2019 till the present date, Eva Reinisch has been Research Group Leader of the Acoustics Research Institute at the Austrian Academy of Sciences, in Vienna. Relevant publications: - Reinisch, E., Jesse, A., & McQueen, J. M. (2010). Early use of phonetic information in spoken word recognition: Lexical stress drives eye-movements immediately. <i>The Quarterly Journal of Experimental Psychology</i>, 63, 772-783. doi: 10.1080/17470210903104412.

2. Reinisch, E., Juhl, K. I., & Llompart, M. (2020). The impact of free allophonic variation on the perception of second language phonological categories. *Frontiers in Communication: Language Sciences*, 5, article 47. doi: 10.3389/fcomm.2020.00047.

Key research facilities. The Acoustics Research Institute, which will function as my main base, is equipped with the necessary resources for carrying out the fellowship project I propose. For WP1, the experiments will be run in an ARI EEG room with acoustic absorbers on the walls and ceiling. The EEG room features the Brain Products electroencephalograph (EEG) with a 128 channels EEG cap. I will use 32 channels because they are sufficient for the event related potential (ERP) analysis I planned. I will use an in-ear tube phone (ER-2, Etymotic Research), which is used instead of headphones to avoid interference with EEG electrodes. I will design the experiment using PsychToolbox in Matlab. I will process and analyse the data using EEGLAB in Matlab. For WP2, the ARI has a computer with Praat installed on it, which I will use to synthesize all the stimuli. For WP2, the ARI has a soundproof lab with an SR Research EyeLink 1000 Plus eye-tracking device with a sampling rate of 1000 Hz positioned 60 cm in front of a computer screen. The eye-tracker is compatible with most contact lenses and eyeglasses. The system uses a remote desktop and a chin rest to help participants keep their heads still during the experiment. There are also professional, noise-cancelling headphones that the participants will put on to listen to the stimuli. The software accompanying the eye-tracker is Experiment Builder which I will use to design the entire experiment.

Previous and current involvement in EU-funded research and training programmes/actions/projects. Researchers at the Academy have been able to bring numerous grants to Austria since the awards began in 2007. When it comes to European funding awards, the Academy is one of the most successful research institutions in Austria. Since 2007, the Austrian Academy of Sciences was involved with 80 ERC grants, worth up to 2.5 million euros. They have also been a part of 7 proof of concept grants, and 18 other grants such as Maria-Skłodowska Curie Grant. The Acoustics Research Institute is currently a host of 3 successful MSCA fellowships.

6. Additional ethics information

7. Additional information on security screening

8. Environmental considerations in light of the MSCA Green Charter

I will adhere to the MSCA Green Charter to the best of our ability, mostly working with the Academy's Sustainability Office to follow procedures and policies and to promote the green strategy.

First, for the WP1, I will need to set up an experiment in which I will be using not only EEG, but also the equipment that follows it. For example, I estimate about 20ml of high-viscosity conductive gel per cap application, that is, around 50 tubes, a couple of tubes of abrasive gel, alcohol prep pads, and blunt syringes. To account for the wear and tear of the equipment, we estimate two replacement active electrodes. In addition, the experiments will need clean towels, and disinfection concentrate to clean the EEG caps and for participants to wash their hair. All the materials that we purchase will be recyclable. For example, we will purchase eco gloves and eco towels as well as recyclable shampoo and syringes.

Second, we will adhere to the MSCA Green Charter and the Academy's sustainability policies with regard to their travel strategy. Vienna has a strong cycling culture, and most dwellers travel to work by cycling or walking. We want to support and encourage this transport strategy by including information about electric bicycle locations and parking spots in the invitation emails to potential participants. In this way, we will also raise awareness on environmental sustainability.
